- *Quality, brand name pencils and sharpeners are best and provide value for money spent. The lead in low quality pencils will break and not sharpen properly and students will use more pencils because of this. Spending more on a good quality sharpener is worth it. Unfortunately, inexpensive sharpeners often do not work.
- Please **do not** bring white out to school.*
- Please put name on supplies and clothing.*
- Pens are not required; students will do all work in pencil.*
